

ES3 SERIES CONNECTORS

I/O for LED Lighting

Product Release

General Specifications

- 1.6mm mounting height
- Voltage rating: AC/DC 200V
- Number of contacts: 2
- Current rating: 1A per contact
- Durability: 20 cycles
- Operating temperature: -40°C to +105°C

Target Application

- Indoor and outdoor LED lighting

Features

The ES3 series is a card edge connector for power supply of various LED lighting devices.

- Direct connection of converter board and LED mounting board allows for reduced assembly work time and reduction in number of parts.
- Contacts are concealed under the insulator to avoid unwanted effects on LED light emission.
- Insulator is made of white LCP for heat and light resistance.
- Available in embossed tape compatible with SMT mounting.

Enclosed you will find a Component Product Information guide and JACS for the series.
