JAE has developed the **ST5 series**, a combo connector with one-piece type external connector for microSD cards and GSM11.11 standard compatible Plug in SIM card. microSD is a trademark of the SD Card Association. The **ST5 series** offers very low profile with a 2.8mm height. It features a push-push structure and a countermeasure to prevent the card from popping out. Applications include various portable devices that uses the microSD card and SIM card .

Enclosed you will also find a copy of the CPI and JACS for the series. For further details and promotional samples, please contact Marketing Resources.
