- Drop impact proof
- 6 positions + 2 (D-SW)

.....

JAE has developed a super-slim type of the **SF7 series** with a nominal height of just 1.9mm. It supports GSM 11.11 standard compliant Plug-in SIM Card (small IC chip cards) for EU digital mobile phones. The **SF7 series** has a new hinge locking mechanism that assures secure mating from drop impact. It features a metal cover and 4 GND points to achieve good shield effect and works in low voltage 1.8V for increased battery life.
