

OPTICAL FIBER HOLDER ON BASE

NEW PRODUCT RELEASE

Richco Inc. introduces a new fiber cable routing device in the Optical Fiber Holder on Base (OFHB2-4-19A1). The OFHB can hold up to four, 2mm diameter fiber cables without damaging the fiber. An extension of the 3mm jacketed fiber cable routing devices, the OFHB expands the Richco offering to now include 2mm jacketed fiber cables. The OFHB comes with adhesive backing for easy and quick mounting without worry of below board protrusion. Material is UL94 V-0 rated for any flammability requirements.

TARGET MARKETS

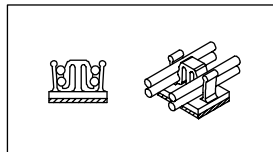

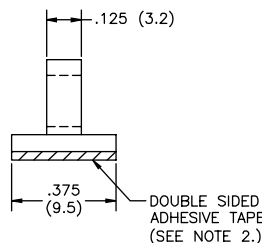

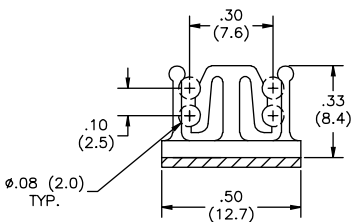

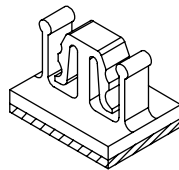

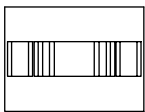

- Electronics
- Datacom
- Telecommunications

PART FEATURES

- Adhesive backed
- V-0 rated material
- Designed for 2mm diameter cables

BENEFITS

- Easy and quick mounting
- V-0 rating requirements
- Specific hold for 2mm diameter cables
