

KWIK WRAP-ADHESIVE FLAT WIRING

NEW PRODUCT RELEASE

Richco is pleased to announce a product addition to our hook and loop series. The RKWFA offers a high tech way to organize and route cables. The RKWFA can be adjusted to varying cable bundle diameters and has an adhesive base for mounting. The entire Kwik Wrap series are back-to-back polyethylene hook, and nylon loop, and are resistant to water, oil and coolant. The Kwik Wraps are releasable, reusable, and will not allow over-cinching of fiber. Please see Richco's Full Line Catalog to view their extensive line of cable management products.
