

Introducing the **WIT-3ORCA**

Releasable Cupped Cable Ties

Features and Benefits

- One piece design saves time and costs associated with inventory and assembly
- Simply press the cable tie into the pre-drilled chassis hole at any point along the assembly process
- Cupped arrowhead provides for a range of panel thicknesses from .023 - .098 (0.6 - 2.5) as well as giving more stability in the chassis mount
- The cup covers the hole and can provide protection against contamination
- Cable ties are available in a variety of materials, UVB Stabilized, Heat Stabilized, UL94 V0 and standard UL94 V2 Nylon 6/6

Markets

- White Goods
- Brown Goods
- Medical
- Security
